Unless otherwise provided for in this approval, all requirements of the City of Beaumont *Land Use Bylaw 944-19* shall be met. **Be sure to review all the documentation included with this permit.**

- 1. As this permit has been issued for a Permitted Use with Variance, this permit shall not come into full force and effect until expiration of the required 21-day appeal period, pending no appeals. Refer to appeal information below.**

- 5. A variance has been granted to Section 3.3.6(b)(v) of the City of Beaumont *Land Use Bylaw 944-19*, to allow the Detached Garage to exceed the maximum allowable total site coverage of 15.0% for Accessory Buildings in the Conventional Neighbourhood District (CN) by 1.97%. Development Permit Notice of Decision

Date of Decision: November 5, 2025

Permit Number: DB-2025-604

6. The Accessory Building shall be constructed with exterior finish materials that complement the Principal Dwelling.
7. Provide adequate surface drainage, ensuring positive drainage away from building foundation and ensuring no water runs onto an adjacent property. In all cases, compliance with the City of Beaumont *Surface Drainage Bylaw 1058-25* shall be required.

Additional Information

1. This Notice of Decision is NOT a building permit. Work or construction shall not commence until an applicable Building Permit has been issued under the *National Building Code – Alberta Edition 2023*, and any other applicable bylaws or regulations.
2. This Development Permit is issued under the City of Beaumont *Land Use Bylaw 944-19*. It does not exempt you from compliance with any other municipal bylaw or statutory plan applicable to the Proposed Development, any relevant federal or provincial statute or regulation, or any easement, covenant, agreement, or contract affecting the subject lands.
3. Contact *Alberta One Call*, at 1-800-242-3447 to locate underground services prior to construction, if applicable.
4. A 6% driveway slope is considered ideal; this plan shows average slopes of 4.8% to property line and 3.8% to lane.

If your plan shows a steep slope on the driveway, the owner may experience difficulties opening car doors, or parking on the surface when it is icy. You may wish to adjust the garage floor elevation to decrease the driveway slope.

If your plan shows a very shallow slope on the driveway, during a heavy snow melt or heavy and prolonged rain, the owner may experience water draining back into the garage and landscaped areas that have been constructed low relative to the street. You may wish to adjust the garage floor elevation to increase the driveway slope.

Permit Notification Information

In accordance with the City of Beaumont *Land Use Bylaw 944-19*, notices regarding this Development Permit have been mailed to owners of adjacent and nearby properties, as these individuals have the right to appeal this permit, as explained above. Notice shall also be posted on site for a minimum period of ten (10) consecutive days within the 21-day appeal period.
